

MICRO BUSINESS GROWTH KIT

Every Business is Scalable

You don't take time growing the business — you take time becoming the right person to grow the business.

A 5-LEVEL ROADMAP TO KES 10M (\$100K) IN ANNUAL REVENUE

Presented by

Gachoka Kang'ata (GK) — Founder, Powering House

“Businesses are always innocent.”

The businesses we build carry no blame for our failures — they simply reflect the design, discipline, and awareness we bring to them. This is the founding truth behind the Micro Business Growth Kit.

— *Words from a mentor that changed everything, November 2023*

THE GROWTH KIT

Built from real experience, not theory

This is the exact Micro Business Growth Kit built over two years — from real experience running four start-ups and undergoing two years of structured coaching. It has the ability to turn a micro business into a KES 10 Million (\$100,000) annual revenue enterprise.

The Growth Target

KES 10,000,000

Annual revenue target — (\$100,000)

From hustle to enterprise — this kit gives you the roadmap, the design tools, and the daily discipline to get there.

**ONE HOUR A DAY. MASTER THE
PLAY.**

CONTENTS

The Five-Level Growth Roadmap

Each level builds on the last — from awareness to a concrete 24-hour action plan.

				
Awareness	02 Business Design	Pillars of Growth	04 Tools of Productivity	Your Next 24 Hours
Turn hustle into entrepreneurship. See the full 360° turnaround.	8 elements that define how your business creates and delivers value.	11 practical pillars that build non-cash capital for your enterprise.	8 tools to close the productivity gap and sustain the flow.	What this means for you — and the plan to adopt it now.

LEVEL 01 — AWARENESS

The turning point

It is until you get a real push that you get real awareness — the kind that separates hustle from real entrepreneurship. For me, everything changed when I had nothing else left. Specifically, November 2023.

Lost all 4 vehicles from my tour company

Lost cash from loans and friends' borrowing

Went from a promising future to zero — then negative

From that time, my journey started afresh — building a business for growth. Two years of patience. Momentum, uninterrupted.

The Invitation

In November 2023, I was invited by a long-time consultant — known for working with big brands on business operations excellence — for a cup of tea. He was 69 then; 71 now.

“You need to learn how to design businesses and run with it. That’s missing for you.”

These are the guides that came from that awareness:
11 Elements of Business Design · 10 Pillars of Business Growth · a full list of productivity tools.

LEVEL 01 — AWARENESS

Three reasons the fall happened

Looking back, the collapse can comfortably be accounted to three root causes.

Lack of awareness

No real understanding of what entrepreneurship means. Seeing only the short term.

1

Lack of business frame

No design at all — just passion and hype, with nothing structural underneath.

2

Lack of right hand-holding

Only cheap cheering from friends. No grounded, experienced support.

3

LEVEL 02 — BUSINESS DESIGN

Design your business. The world already has.

We are living through a quiet revolution. Even the smallest business in the village now competes with the biggest corporates in world capitals. Design your business across 8 elements — starting with these four.

Business Universe & Value Proposition

Define the size of your business and the value you offer — this is the business you are truly in.

Route to Market & Customer Acquisition

Define the exact route to reach customers, and how you acquire them until they buy.

Customer Journey

How you serve the customer from first interest to a satisfied goodbye — with certainty, not chase.

Sales Infrastructure

How you manage relationships with acquired customers — is there a real CRM practice?

LEVEL 02 — BUSINESS DESIGN

Design your business — continued

2 / 2

Business Money

Explain the full circle of every shilling, entry to exit. Don't let personal costs bottle business growth.

Performance Indicator Reviews

Establish metrics, monitor periodically, and take corrective action on time.

Goal Alignment

Become a better business maker — right attitude, continuous skilling, mental strength.

Digital Marketing

Of 8 billion people on earth, over 60% are online. Master this revolution — don't be left out.

PROVEN WITH REAL BUSINESSES

Dacha Travels

Pweza Foods

Dream Crest

LEVEL 03 — PILLARS OF GROWTH

Eleven pillars of business growth

Non-cash capital that strengthens the foundation of a small enterprise — you don't only need cash to build your business.

- 1 Business Planning**
Reliance on the right information about the business.
- 2 Communication & Negotiation**
Trust through strategic communication with the right people.
- 3 Business Networks**
Sourcing knowledge through the right people, intentionally.
- 4 Continuous Learning**
Skills in sales, negotiation, and business interpretation.
- 5 The Art of Sales**
Sales funnels and CRM systems that actually work.
- 6 Community Support**
The community that gives your business real momentum.
- 7 Business MOAT**
A competitive advantage that isn't easily copied.
- 8 Finance Discipline**
Business money accountability structures.
- 9 Staff Management**
Productivity through the right people, right seat.
- 10 Business Operations**
Operational excellence for top-level customer satisfaction.
- 11 Performance Monitoring**
Indicators and review mechanisms for timely improvement.

LEVEL 04 — TOOLS OF PRODUCTIVITY

Most businesses achieve far less than half their potential

Overall win from business operations is achieving optimum productivity — of people and machine. When capital paid on machines and staff returns below average, that's a D. And that D is CASH lost.

Business growth only comes from the ability to sustain the flow. Sustaining the flow comes from systems that create a repeatable trend — made possible through tools of productivity.

The businesses this kit was built for.

<50%

OF BUSINESS POTENTIAL
ACHIEVED, ON AVERAGE

The average grade on Return on Investment for capital paid on machines and staff.

LEVEL 04 — TOOLS OF PRODUCTIVITY

Eight tools of productivity

Goals Planner

Aligns activities with pre-set business goals.

Activity Planner

Moves ambitious goals into actionable daily steps.

Performance Monitor

Turns operations from hobbies into measured progress.

Financial Recording

Ensures full accountability of costs and income.

Process Flow

Defines critical processes to detect waste and bottlenecks.

SOP Tool

Standardizes defined processes for consistent quality.

Job Descriptions

Sets real expectations for maximized staff productivity.

Sales Funnel

Predictable, monitored effort behind consistent income.

LEVEL 05 — WHAT THIS MEANS TO YOU

There's no right time

Maybe you're just getting started — call it ideation stage. Maybe you've been running your micro business for 6 months, 1, 2, 3, 4 years. Or maybe you've just been waiting, knowing you need a move but not which one. Don't let a mental lie hold you back.

“I am late”

*“I missed opportunities
with the rest of my
buddies”*

“I can't catch up”

Your business needs to grow because it is needed to elevate society beyond yourself. This is my mirror — not just stories of what can work. I have lived it for two years, every day, and seen progress every year.

LEVEL 05 — WHAT THIS MEANS TO YOU

Your next 24 hours

Don't just save this document. Use it. You only need commitment and one hour a day to keep mastering.

1 Clear your mental imaginations

2 Reclaim your time

3 Let go of what's not helping

4 Use the road map and tools now at your fingertips

5 Master the play and remain in the game

Take the first step — one leg at a time
